**Can Not Be Secured Before Monday at Hamilton—
Strangler Takes a Keen Interest in
Proceedings of the Court.**

Hamilton, O., June 27.—The third venire of forty jurors, making in all 124 in the trial of Alfred Knapp, the confessed strangler, was exhausted last evening with eleven men accepted, subject to peremptory challenge. Of these challenges the defense has nine and the state two to exercise. When the court convened this morning another venire of 40 men was present and the examination of jurors was continued. It is now conceded that it will be impossible to secure a jury before Monday. Knapp takes a keen interest in the proceedings.

JUDGE PARKER

IS FAVORITE OF FORMER GOV. PATTISON

Who Regards Cleveland as Weak—Parker a Strong Man and New York is Potential.

Washington, June 27.—The correspondent in this city of the Newark News had an interview in Philadelphia with ex-Governor Pattison on Democratic politics. When asked about the talk of again making ex-President Cleveland standard bearer in next year's contest, Mr. Pattison said:

"He would make a very weak candidate, in fact, there is hardly any condition, however favorable, under which Mr. Cleveland could be elected, even though he received the nomination, which is impossible. That the people of this country will not give any man a third term at this time, and it is to be hoped they never will, is my sole objection to Mr. Cleveland. All this talk about him as a possibility is idle, and Democrats would better busy themselves with feasible ideas."

"I have not the least doubt that Mr. Cleveland will express himself in no uncertain language when the time comes."

When asked his view of the new Pennsylvania libel law, Mr. Pattison said: "I do not believe, as a Democrat, that there can be too much publicity in this country. As a controller and governor of Pennsylvania, the greatest protection I had in office was publicity."

"You have been spoken of in connection with the Democratic presidential nomination."

"I am from the wrong State; the Democratic party is the minority party here. Judge Parker is a very strong man and New York is potential."

INDIAN FIGHT

**Nine Redskins Killed By Mexican Soldiers—Trouble
Started By Attack On a Stage
Coach.**

London, June 27.—A dispatch from Jibutle, Somaliland, received in Paris this morning announces a serious British reverse in West Africa, between the towns of Burao and Bohottle. The war office here cannot confirm the bad news.

A dispatch was received at the war office from General Manning, who is in command of the Somaliland forces but no mention was made of any reverse. On the other hand Manning reports that the Mad Mullah has retired. The dispatch, which is dated Bonottle, June 26, reads:

"The Obbia force reached here today unopposed. The Mad Mullah with his fighting men has crossed our line half way between Damot and Bohottle. He did this because of our hold on the town of Mudug, and also because of Abyssinia pressure from the south. The garrisons of Damot and Bohottle were threatened by a number of horsemen, who, however, made no attempt at a serious attack."

"If it had been possible to send a sufficient force from Bohottle, the Mullah's flight could have become a rout. The prisoners taken state that the tribesmen are disorganized."

SAGE OF WHITEHALL IS ILL.

Clay, former minister to Russia and the sage of Whitehall, is reported as being dangerously ill at his home and this, by reason of his advanced years, has caused considerable alarm to his friends. a negro man servant and none, except those whom General Clay is desirous of meeting with are admitted to the house. A feature of the ceremony

was the presentation to the Kaiser of the workmen engaged in the construction of the vessel. His majesty shook the hand of each man and asked questions, showing a remarkable knowledge of mechanical details. The men wore their working clothes. The Kaiser's majesty had lunch with Admiral Colton aboard the battleship Kearsarge.

QUEEN LIL

Arrived With Escort of Hundred Mounted Men and Women—Immigration is Opposed.

Honolulu, June 27.—The house of representatives by a vote of 77 to 9 has declared itself opposed to the coming here of any more Americans. The native Hawaiians voted as one man against opening the doors to all comers. They took the ground that the Americans came in without any restrictions and thus the natives would lose control of the legislature. The bill was to appropriate money for immigration and to allow immigration from the mainland. It was defeated but it will probably be reinstated on third reading.

A significant fact in connection with this anti-American attitude of the native legislators was the presence of the former Queen Lil at the celebration of Kamehameha day. She came with an escort of 100 mounted men and women all dressed in red. On this day was organized the "order of Kamehameha," a secret political society limited to voters of Hawaiian blood. Queen Lil is said to have dropped her usual attitude and to be warmly interested in home rule.

NEW THEORY

Of the Geyer Murder in Franklin County—Was Mrs. Geyer Thought to be Dead?

Columbus, June 27.—A theory of the murder of George Geyer, near Alton, has been developed which dispates the idea that Mr. Geyer was killed because he was demonstrative, or because he refused to give more money than he had already given to the hobbers.

The author of the theory said substantially last evening: "It is now known that Mrs. Geyer when the robber had hold of her struggled very hard for a few moments and then collapsed from weakness."

"Her assailants left black and blue marks on her wrists, and one finger was nearly dislocated, and she had been choked."

"She recently said to a friend that she was surprised at her strength for a moment or two and then she fell back on the bed, utterly unnerved and almost unconscious."

"Then the remark was made by one of the robbers, 'What shall we do with the old man?' and the reply was: 'Shoot him.'"

"Why? Because they supposed that the old woman was dead, and they did not want the old man to live to identify them, should they be caught."

"When the case comes to trial such a state of facts will be developed."

BUTCH FLICK

NOTED COLUMBUS PLAYER NOW WITH IDLEWILDE.

He Played Great Ball Friday, But Could Not Stop Urbana, Who Won 6 to 2.

The baseball game at Idlewilde park Friday between the Urbana and Idlewilde teams was a pretty contest, and only one complaint can be made and that is that the home team did not win. The fielding on both sides was sharp and clean, and many pretty plays were made during the afternoon.

"Butch" Flick probably the best known player in Columbus, who is under reserve to the Indianapolis American Association club, made his first appearance at second with the home team, and his playing was a feature of the game. Once he ran out into center field and pulled down a sure hit, retiring the side and preventing any runs. Another time he ran over by first and made a sensational one hand pickup of a grounder, retiring the runner at first, and also was at one end of a lightning double play. Flick's coaching and constant hard working efforts were highly appreciated, and he received generous applause. Flick's playing will be a feature of the games and should be seen to be appreciated.

Ferguson went to right field and made one great catch of a line fly, and also caught a man at second by a quick accurate throw. Walser in left also did well as did all the home players. The Urbana team is the fastest aggregation of ball players that has been seen in Newark this season. They are great fielders, good hitters and like a flash on the bases. Their play Friday was a treat to the good sized week day crowd.

The story of the game can be easily told. Urbana hit when hits meant runs, while the home team's bingles were widely scattered, and unproductive. Twice the side was retired with three men on bases, when it seemed certain they would score. The following is a tabulated account of the game:

VALISE

Containing Gold Watch and Clothing
Lost a Month Ago is Restored to the Owner.

About a month ago Mr. and Mrs. J. L. Chaifant passed through Jackson town on their way from Zanesville to Muncie, Ind., and some place between the Avondale road and the National road station, lost a large valise or telescope from the rear of their buggy, but did not miss it until they had nearly reached Hebron. As the telescope contained a number of valuable articles they retraced their steps but were unable to obtain any clue as to the whereabouts of the telescope. Several parties were suspected of taking it and two houses were searched. A reward was offered by the parties, but no clue as to its whereabouts was ever obtained. On Wednesday, June 24, Miss Grace Osborne, daughter of Mrs. Mary C. Osborne, while picking berries with a number of others on her mother's place, found the telescope hidden under a clump of bushes. It was taken to the house and opened and found to contain a lady's gold watch, gentleman's suit of clothes, razor and several ladies' suits of clothes. Mrs. Osborne wrote to the parties at Muncie, Ind., and was requested to forward the telescope to that point, which was done Saturday.

A Grim Joke.

The value of a joke often depends upon the viewpoint of the people who hear it. There was an interesting incident during the recent meeting of the American Orthopedic association at the Arlington, when one of the members was describing an operation which resulted in the death of the patient. He told all about the first symptoms of a case of hip disease and of the operations that were performed. It seemed that there were elements of the case that were not known at the time of the operations.

"But," he said, elucidating the subject with the greatest candor and showing that the doctors interested in the case finally triumphed by securing a complete understanding of the matter, "the mistake was discovered at the autopsy."

The intense interest of the assemblage of doctors was not interrupted by even a twitch of a single risible.—Washington Star.

Short Surnames.

An investigation to discover the shortest surname seems to show that Mr. By possesses it. Of course there are others equally short in pronunciation though weighted with a superfluous letter. Such is the name of Dr. Goe, the recently retired Anglican bishop of Melbourne. George Ade, the writer, belongs to the list. Nye is another example. The premier of New South Wales, Sir John See, has certainly established a record for brevity in this connection among prime ministers. Short surnames naturally suggest long ones. Scotland seems to supply a fair share of the latter. Gentlemen who in these busy times have to write Featherstonhaugh or Osbaldestine at the ends of their letters are certainly entitled to sympathy. There is an Irish chieftain too, whose signature is McGillicuddy of the Reeks.

A Floating Academy of Science.

An indication of a new tendency in scientific study is furnished by the plan of the Geographical Society of Baltimore to send to a summer to the Bahama Islands a ship carrying a staff of fifty persons, who will study the geology, geography, botany, zoology, climatology, physics and medical and hygienic conditions of those islands. The ship specially chartered for the purpose will be fitted and equipped as the home and laboratory of the party during the entire trip.

DEMOCRACY DEFINED.

(The Commoner)

Mr. William O. McDowell, of New York, president of the Cuban-American league, was asked at the close of one of his lectures, "What is the correct conception of democracy?" He replied: "It is an aspiration—a determined purpose—hoping for, struggling for, fighting to the end for, liberty, the equal well-being of all men. It is a religion built upon a creed that asserts the natural dignity and birth-right equality of all men. It is the golden rule, the ten commandments, the Sermon on the Mount and the American Declaration expressed in a single word."

"The word 'democracy,' it will be seen, has a meaning deep and broad. It is derived from the Greek and means the rule of the people; and the rule of the people, resting as it does upon the doctrines set forth in the Declaration of Independence, can only be preserved by the cultivation of a profound and universal respect for human rights.

Both aristocracy and plutocracy are constantly at war with democracy and the Democrat must be not only vigilant and active, but he must know that his own security rests upon the equal rights of all.

THE AMERICAN MAN Of the Glacial Age.

The scientific evidence is continually becoming stronger that man existed in America in the Glacial Age. That is, in the remotest prehistoric days he belonged to a race entirely distinct from the Indians, and there are apparently no descendants of his among the present so-called Aborigines of the American continent. From the Glacial period to the present day nothing has ever been discovered that has such wonderful power over disease as Dr. Burkhardt's Vegetable Compound. Chronic cases of Rheumatism, Catarrh, Constipation and diseases of the Blood can be cured with this remedy where everything else fails. 30 days' treatment 26c. All druggists.

DEMOCRATIC TIMBER

For Governor and United States Senator to Be Nominated at the Next State Convention--Tom Johnson and John L. Zimmerman, Will Both Be Presented for the Gubernatorial Nomination--Allen W. Thurman and Others Talk of For United States Senator.

Columbus, O., June 27.—Affairs of deep interest to the Ohio Democracy have been assuming more definite forms during the past week than they have appeared in since the coming state convention began to be talked about. The past few days have witnessed such progress in the solution of certain interesting problems that an intelligent view of the situation can now be taken for the first time. It is now about settled that there will be two candidates and very probably only two for the Democratic nomination for governor. These two are Mayor Tom L. Johnson of Cleveland and Hon. John L. Zimmerman of Springfield. It is probable that one of them will decline to have his name used in this connection, but that one will not be Mr. Zimmerman if present indications amount to anything. It is up to Mr. Johnson to say whether there will be two candidates.

Mayor Johnson's position in regard to this matter has been variously represented for some time. Such close friends of his as Charles P. Salen of Cleveland and Congressman Harvey C. Garger of Greenville, have repeatedly insisted that Mayor Johnson not only would not be a candidate for the gubernatorial nomination, but would not accept the honor if tendered. On the same apparently good authority it has been said that Mr. Johnson was not to be considered in connection with the nomination for senator. Mr. Johnson himself has only gone so far as to say that for the present, at least, he was not an active candidate for either nomination.

It is now safe to say, however, that Mayor Johnson will be voted for for governor in the convention and with his consent. He will invite a test of strength with any candidate who is willing to stand against him and it is now practically certain that he will meet with formidable opposition led by Mr. Zimmerman. The situation today has narrowed down to the choice of one or the other of these two distinguished gentlemen as the leader of the state Democracy in the coming campaign.

Mr. Zimmerman's friends have been very active of late and have not required any signed statement from him to inspire their zeal in his behalf. They are confident that the statement will be forthcoming in due time and the readers among them say that his name would be presented to the convention even in the absence of any statement whatever. As is entirely natural Mayor Johnson's chief strength will come from Cuyahoga county and the north-west and Mr. Zimmerman's will come from Central and Southern Ohio. Mr. Johnson will have the solid support of his delegation, which will be the largest in the convention. Mr. Zimmerman will also have the unanimous backing of the delegates from his county, notwithstanding recent reports to the contrary. The latest assurances from Clark county set at rest all doubt that may have existed at any time with reference to the attitude of the Democracy of that section toward the Springfield candidate. Mr. Zimmerman will have not only the vote of his county but the solid vote of his congressional district also.

It is well known that Mr. Zimmerman favors a conservative platform and it is understood that if he could have his way he would make it brief and condensed as possible.

A strong point in Mr. Zimmerman's candidacy is that he deprecates party factionalism, and he aspires to be the candidate of the whole party instead of a victor at the head of a faction.

Both Mayor Johnson and Mr. Zimmerman are men of earnest convictions and both deeply interested in the success of the party. Neither would accept a nomination on a platform not entirely agreeable to him, but either would loyally support the other when nominated as against the Republican platform and candidates to which both are unalterably opposed. The next few weeks will develop some very interesting progress of the Johnson and Zimmerman candidacies, and for the present at least, it must be admitted that they uphold the boards to the exclusion of all others.

There is New Richmond in the field for the Democratic endorsement for United States Senator. He is Hon.

Allen W. Thurman of Columbus. Mr. Thurman's name has only recently appeared in this connection but his friends say that it will not in any case be withdrawn. Much more timber appears in the senatorial than in the gubernatorial landscape. It is understood that Mayor Johnson and his friends look with most favor on Hon. M. E. Ingalls of Cincinnati for senator, although they might easily be brought to the support of Hon. John H. Clark of Cleveland. Charles W. Baker of Cincinnati is also a quantity to be reckoned with under certain conditions. He received the complimentary vote of the Democratic minority in the 75th general assembly and therefore has the right to consider himself a logical candidate, if there is any logic in politics. It is now understood that Col. James Kilbourne, who led the party in the last gubernatorial campaign, does not desire the endorsement for senator this year. His name was sprung in this connection some time ago, but it has met with no response from him. Col. Kilbourne is said to be more interested in the next national than in the present state campaign and it is understood that he would not be adverse to being one of Ohio's Big Four in the national convention. This may account for his present attitude toward the senatorship which leaves Mr. Thurman, who is Colonel Kilbourne's close friend, an open field for the endorsement of Franklin county. Mr. Thurman's friends assert that he would make an especially strong candidate for senator this year on account of his recent successful labors as a member of the canal commission. He can also point to along and honorable record as a hardworking Democrat and one who has enjoyed the confidence of the party's leaders in both the state and nation. He might readily become a strong compromise candidate. The senatorial problem is a very interesting one and will develop perhaps the most noteworthy phases of the convention.

Within the past few days the name of Hon. C. D. Crites of Linn, has been conjured up as a possible candidate for the Democratic nomination for auditor of state. This is not on his initiative but comes entirely from friends of his in various parts of this state who regard him as the man best calculated to retire Auditor Guilbert from public life. It is asserted in Mr. Crites' behalf that he would be particularly strong among business men of all parties and that his nomination would be a tower of strength to the whole ticket, while his election would insure the redemption of the auditor of state's office from the rule of bossism that now dominates all its transactions.

There is not yet much talk for lieutenant governor or supreme judge. Hon. C. E. McBride of Mansfield is out for the latter nomination and thus far no opposition to him has developed. All the minor nominations will be held up in the air until the gubernatorial and senatorial situations have been definitely ascertained.

HON. W. E. MILLER

Urged by Many Leading Democrats for Treasurer of State—But He is Not a Candidate.

Our popular townsman, Hon. Wm. E. Miller, has been receiving numerous letters recently from prominent Democrats in different portions of the State, urging him to be a candidate for Treasurer of State before the coming Democratic State Convention. Mr. Miller is thankful for the many manifestations of confidence and friendship expressed in these requests, but he is compelled by circumstances and business engagements to decline becoming such a candidate the present year. That he would make a strong and popular candidate goes without the saying. He has hosts of friends wherever he is known throughout the entire State.

GREAT FUN

Had the Griggs Clerks Chaperoned by Manager W. H. Mazey at Buckeye Lake Friday.

The annual outing of the employees of the H. H. Griggs company's dry goods store, was held at Buckeye Lake Friday. The employees, together with Manager Mazey, about forty in number, left the Public Square on a special Buckeye Lake car at noon. Upon their arrival they were met by Col. Wells, who took care of the party and provided for their wants with his usual urbanity. The party of merry makers immediately repaired to the observatory, on "Bounds' Knob," where volleyball and other games were participated in for several hours, when all boarded the pretty naphtha launch and visited Beech island, Shell Beach and Summerland Beach. About 6 o'clock they returned to Col. Wells' and again repaired to the "Knob," where a program of exercises, consisting of a sack race, one hundred yard race, three legged race and other events were had, handsome prizes being awarded to the winners. After the exercises on the "Knob" had been concluded a sumptuous supper was partaken of on the veranda of the hotel, which was very much enjoyed by all. After returning thanks to the genial Col. Wells for the hospitality accorded them, the party boarded the car that was in waiting and started for home arriving in Newark at 10 o'clock. All are unanimous in saying that it was the most enjoyable outing ever held by the employees of the Griggs Company's store.

CARD OF THANKS.

FIRE

Of Mysterious Origin Accompanied by Two Distinct Explosions Did Great Damage.

Milwaukee, Wis., June 27.—Fire of mysterious origin and accompanied by two distinct explosions of great violence started in the rear of the old Schneider and Schimmel store, in the Matthews building last night. In three hours' time it burned the building out from Third street around the rear of the Matthews building to the Grand avenue front, burned the largest part of the Davidson hotel annex, three stories high, running from the Matthews building in Third street to the Davidson hotel, ate into the fourth and fifth floors of the Boston store and through the Boston store roof, doing a total damage of \$300,000. A number of firemen were injured but none seriously.

While many of the firemen were still working on the blaze, a fire in the elevator and malt houses of the American Malting company, destroyed four of the huge elevators, causing a loss estimated at \$350,000.

The fire had its origin from an electric wire on a hot journal of one of the immense boilers, causing an explosion of the boilers.

The explosion was terrific in force and the shock was felt at a distance of nearly two miles.

Poles' Novel Prayer.

In Poland the patriots are now endeavoring to popularize the following curious version of the Lord's Prayer: "Our Father, who art in heaven, restore to us the kingdom of Poland. Deliver us from slavery. Give us this day our daily bread, but not steeped in blood and poisoned through the wickedness of our enemies. Pardon us for the sins which are engraved on our swords. Suffer us not to fall into the temptation of becoming traitors to Poland and deliver us from the domination of a false foreign power, since that is our worst evil." Thousands of Poles have learned this prayer by heart and invariably use it instead of the old and familiar version.

A Novel Celebration.

The Antislavery league of Indiana is planning a most novel celebration of the Fourth of July, says the New York Commercial Advertiser. Its members are to turn themselves for the time being into detectives and report every violation of the liquor law in every town in the state where there is a celebration. Temperance mass meetings will be held in conjunction with the patriotic meetings. Special performances of "Ten Nights in a Barroom" will be given in a dozen or more towns, and committees will beset all meetings and the like to get the visitors to sign pledges to promise to do all in their power to deprive saloons of their license and to fight the demon rum generally.

Startling Evidence.

Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption, Coughs and Colds to be unequalled. A recent expression from T. J. VICTORY FOR CITY

Friends of Municipal Ownership of Water Works in Newark Have Reason to Feel a Reasonable Complacency--Decision Rendered By Judge Seward.

Judge Charles W. Seward Saturday morning in Common Pleas Court, handed down his decision in the case of Charles C. Metz against The City of Newark, an action brought to restrain the issue of bonds for water works purposes.

Judge Seward holds the bond issue to be legal, dismisses the petition and dissolves the temporary injunction heretofore granted. "His decision however, is that the bonds should not be issued for two years from March 17, 1902."

At the spring election last year the question of issuing water works bonds in the sum of \$300,000 was submitted to the voters and received more than two-thirds of the votes cast. Before the election, council passed a resolution not to issue the bonds for two years from the date of the resolution.

After the election the water works committee, acting through its chairman, Dan L. Jones, requested Solicitor Smythe to go back over the proceedings of council, and report whether he could find any irregularities. Mr. Smythe made a thorough examination and reported that the proceedings were regular and valid. This report was submitted to three leading attorneys two of whom agreed with the solicitor, while one thought there was some question as to the validity of the proceedings, on account of the passage of the ordinance declaring that the bonds would not be issued for two years. In order to remove this doubt an ordinance was passed to sell the bonds, not however with any intention of selling them, but in order to lay the foundation for a suit, that the courts might determine the regularity and legality of the proceedings, before it was actually desired to sell the bonds. The city arranged with Mr. Metz to bring the suit, as it was recognized by the officials that the bonds could not be sold until after the two years had expired. It was desired, however, to have the courts pass on the subject in time to settle the question when the sale of the bonds became necessary.

This case will be taken to the Circuit Court on appeal, and even if it goes to the Supreme Court there will be plenty of time to get the matter settled, finally.

The decision in this case is a great victory for the city, and every friend of municipal ownership of water works has reason to feel a reasonable complacency. The opinion of Judge Seward, rendered Saturday morning in full follows:

Charles C. Metz on behalf of the city vs. The City of Newark et al, demurrer to the petition.

The petitioner alleges that he is a tax payer; that he requested Philip B. Smythe in writing, who he alleges was the qualified and acting city solicitor, to bring the action; that Newark is a city of the fourth grade, second class; that the City Council of the city on February 24, 1902, at a special meeting called at the request of three members of the council addressed to the president of the council; that notice of the meeting was served upon all the members of the council on February 24, 1902; that the council was composed of 16 members; that at the meeting in pursuance of said call 13 members were present; that at said meeting the council passed an ordinance under a suspension of the rules declaring it to be the opinion of that body that it was necessary to establish and erect, build and maintain a system of water works to supply said corporation and the inhabitants thereof, and declared the establishment of such system and that the same be built and maintained by said city.

The petitioner alleges the publication of the ordinance according to law, that on the same day another ordinance was passed under a suspension of the rules to issue and sell bonds in the sum of \$300,000 for the purpose of erecting and building a water works system for supplying water to said city and its inhabitants and to make special levies of taxes to pay the principal and interest; that said ordinance was duly published and provided for the submission of the question to the voters of said corporation of the necessity of erecting water works and of

issuing bonds in the sum of \$300,000 and levying taxes upon the taxable property to pay therefor and that the mayor gave fifteen days notice of the submission of said question to said voters in two newspapers; that on March 3, 1902, at a regular meeting a resolution was duly and regularly passed by said council appointing a non-partisan committee of four persons to investigate the advisability of establishing a water works system and issuing bonds to pay therefor; that said committee made a report to council and to the voters that the municipality and its inhabitants were now supplied with water and a water works system was now in operation and by a contract with the company operating same the city would be supplied with water by virtue of said contract until 1905, and that unless the council would agree and declare that it would not issue said bonds or build said water works system for a period of two years, the committee recommended that the voters should cast their votes in the negative.

The submission of the question to the voters was certified by the council to the Board of Election pursuant to a resolution to that effect passed March 17, 1902.

March 10, 1902, the Mayor issued his proclamation proclaiming the election to be held pursuant to ordinance of February 24, 1902, which was duly published March 10, 1902, the first time; that pursuant to the report of said committee the council on March 17, 1902, at a regular meeting at which 13 members were present enacted an ordinance upon suspension of the rules by two-thirds vote providing that in the event that the question submitted to the voters of said city under the ordinance of February 24, 1902, should receive two-thirds of the votes of said city then said council would not sell said bonds, nor construct said water works as proposed, until the expiration of two years; that said ordinance went into effect ten days after its passage, to wit: March 27, 1902, and less than 15 days before election; that the members of the city council signed a written statement or promise not to issue said bonds.

The petitioner agrees that the contract with Hinds, Monet & Company, July 23, 1885, for franchise was for 20 years.

The petitioner alleges that the council, 20, 1902, the City Council, at a regular meeting under a suspension of the rules, passed an ordinance to issue bonds in the amount of \$300,000 at the present time.

Alleges that the officers of the city are about to sell said bonds; that the proceeding is illegal and contrary to the ordinance of March 17, 1902, and prays for an injunction against the issue of said bonds, and at the final hearing this injunction be made perpetual.

An examination of the question raised by the general demurrer involves an examination of the statutes which control, govern and define the power given to a municipality in relation to the question of water works.

Section 1692, Revised Statutes, provides that cities shall, in addition to the powers specifically granted in title 12, and subject to the exemptions and limitations in other parts of the title, have the powers enumerated in section 1692, and the council may provide by ordinance for the exercise and enforcement of the same. One of these powers is described in sub-division 31, of section 1692.

So that it will be seen that cities have the power to provide a supply of water by a water works system.

There does not seem to be any question as to the power.

The regularity of the manner of exercising this power, conferred upon the municipality by the legislature is the bone of contention raised by the demurrer.

The demurrer admits for its purpose, that the facts stated in the petition are true, and claims that although true there is no case made out for the intervention of a court of equity by its submission of the question to the voters of said corporation of the necessity of erecting water works and of

the purpose in view, whenever it is desired by the voters of the corporation, to make certain improvements or provide for certain public purposes, one of which is, for the erecting or purchasing of water works to supply the corporation and the inhabitants thereof.

It will be observed that on the question of issuing such bonds, the council is powerless until the desire of the voters is made manifest, through the ballot, to make the improvement for which the bonds are sought to be issued.

Section 2837 provides that before any bonds are issued as provided in section 2835, i. e., for water works, etc., the question of issuing such bonds shall be submitted to the voters of the city, at a general or special election; and whenever the council shall by resolution declare it necessary to issue and sell the bonds of the corporation for water works, in any amount specified in the resolution, and shall by such resolution fix a date when such question of issuing and selling such bonds shall be submitted to the electors--and shall cause a copy of such resolution to be certified to the deputy state supervisors of the county in which such corporation is situated, or the Board of Elections in cities which have such boards.

Fifteen days notice of such submission shall be given in one or more newspapers printed therein once a week for two consecutive weeks--stating the amount of bonds to be issued, the purpose for which they are to be issued and the time of holding the election.

And if two-thirds of the voters voting at such election upon the question of issuing the bonds, vote in favor thereof then and not otherwise the bonds shall be issued and the tax levied.

Then follows a form of ballot.

Passing by the calling of the special meeting of the City Council on February 24, 1902, as no question is made that it was legally called, the proper request having been made and the members properly served with notice.

Section 1692 provides that the Council may provide by ordinance for a supply of water by the construction of waterworks, and the council has done this in the following ordinance:

And by the second ordinance have provided for the issuing and sale of the bonds.

Now let us examine this ordinance and see whether it conflicts with section 2837, and does not exceed the power therein granted.

The ordinance declares it necessary to issue and sell bonds in the sum of \$300,000.

The statute provides that the Council shall declare it necessary to issue and sell the bonds.

The ordinance so declares, and in that regard complies with the statute; the statute requires the amount to be specified in the resolutions; the ordinance specifies the amount to be \$300,000; the statute requires that such resolution shall fix the date upon which the question of issuing and selling such bonds shall be submitted to the electors; the ordinance fixes the time at the next municipal election to be held on the first Monday in April, 1902. The statute requires that a copy of the resolution shall be certified to the Board of Elections; the petition does not allege that was not done; then the Board shall provide tickets; the statute requires that fifteen days' notice shall be given in one or more newspapers, printed therein once a week for two weeks, specifying amount and purpose and the time of holding such election. It is not claimed that this was done.

The statute provides that if two-thirds of the voters voting at such election upon the question of issuing bonds vote in favor thereof, then and not otherwise, the bonds shall be issued, and the tax levied. The petition shows that this resolution was regularly passed; that the notice was duly given; that a proclamation of the election was made by the Mayor; that the election was held and more than two-thirds of the votes cast were in favor of water works. The petition alleges that proceedings of the council as set out therein are illegal, but up to this point the statutes governing the council have been strictly followed.

It appears to the Court that every prerequisite required by the statutes have been complied with by the council in order to submit the question of the issuing of bonds to the qualified electors. But, it is claimed by the plaintiff that the ordinance of March

17, 1902, fixing the time within which the bonds should not be sold and the water works should not be constructed, either amended or repealed, by implication, the resolution of February 24; if it amended it then it became a part of the resolution of February 24, and if a part of it was not published for the requisite time, fifteen days if it repealed it by implication, then there was no legal election held, as the resolution submitting the question to a vote had not been repealed.

But the Court finds that the ordinance of February 24, 1902, is drawn under the statute, and is complete in itself, containing all the elements required of it by the statute, and that the time of the sale of the bonds, etc., as fixed by the ordinance of March 17, is not required to be submitted to the voters, and would be surplusage if contained in that ordinance. They have the right to say whether bonds shall be issued or not by the voters, but the question of time is not submitted to them. But does it repeal the ordinance of February 24 by implication? It is too well settled that repeals by implication are not favored by the law to need citation of authority. Repeals by implication will not be recognized unless the repugnance between the prior and subsequent act of legislation be necessary and obvious and so great that the two cannot be reconciled, by any fair course of reasoning. Is it repugnant to the provision of the ordinance of February 24, 1902? It is claimed that it has reference to the same subject matter. Well, it does have reference to water works, and the issue of bonds, but it deals only with the time of issue and the time of construction. I know it is claimed and not without some reason, that this ordinance negatives the fact that a necessity exists as found in the ordinance of February 24. But this does not necessarily follow. I therefore find that the ordinance of March 17, 1902, is not repugnant to that of February 24, which is not an element required to be in the ordinance of February 24.

It is claimed that this non-partisan committee, which was appointed by the council, and which investigated the matter, found that there was a provision for supplying the city with water, and that they would refuse to recommend that the voters vote for the establishment of a water works unless the time was deferred for a period of 2 years; and that that act of the special non-partisan committee influenced the voters in relation to the water works; that persons voted for the establishment of a water works who otherwise would not have voted for it, and the Court is free to confess that he is one of those persons; that he would not have voted for the water works if the resolution had not been passed or the promise made that bonds would not be issued for a period of two years; and it is claimed that the council signed an agreement to that effect. I do not think the signing of an agreement by the members of the council would bind them at all, but the Court does think that the sale of these bonds at this time on the part of the city council would be an act of bad faith; and while the Court holds the petition good, as far as restraining the issuing of the bonds for a period of two years is concerned, the Court does not think the petition warrants the Court in granting a permanent injunction, and the Court will grant an injunction restraining the city council, of the city authorities, from issuing these bonds, or selling them, at least for a period of two years from the date of the passage of this ordinance. The decree may be drawn accordingly. The Court holds that the bonds are legal.

Application was made to the Court that Timothy O. Donovan be made a party, with leave to file an answer and cross petition in the Metz case. Leave was given to file the same, to be submitted to counsel on the other side.

DUTY BEFORE PLEASURE.

Why Mrs. Rivalton Postponed Her Trip to Europe This Summer.

"What do you think, Mary?" asked Mr. Rivalton, somewhat indefinitely, as he beamed at his wife across the polished carving knife and fork.

"Why, I don't know of anything, James," responded Mrs. Rivalton expectantly. "What?"

"I've been busy arranging my affairs," said Mr. Rivalton impressively, "and at last I've got 'em in such shape that I can afford the time this summer."

"Yes, yes, James?" cried Mrs. Rivalton, all in a flutter as her husband paused teasingly.

"For us to take that long deferred trip to Europe," concluded Mr. Rivalton triumphantly. "We'll be able to get off some time next month."

"Oh!" ejaculated Mrs. Rivalton in a disappointed tone.

"Why, what's the matter, Mary?" asked Mr. Rivalton, dropping the knife and fork with a clatter at the unexpected reception of his announcement and staring blankly at his wife.

Mrs. Rivalton only shook her head dejectedly.

"What on earth's to prevent?" demanded Mr. Rivalton sharply. "You've always been eager to go. It's been the dearest dream of your life. You've nagged and pestered me to drop my business and go every year since we've been married."

"I know it, and I am wild to go," acknowledged Mrs. Rivalton in the voice of a martyr at the stake. "But--but I heard something only this morning that--that makes it impossible. You may go, James, but I've got to be home here this summer; I've just got to."

"Why, what is it?" inquired Mr. Rivalton anxiously.

"Well," explained Mrs. Rivalton reluctantly, "Mrs. Ayres told me this morning that that aspiring Mrs. Pushington told her in strict confidence that she is going to give a fete chappelle some time this summer that will eclipse anything we ever had in this town."

"Why, what of it, Mary?" asked Mr. Rivalton with wide eyed wonder. "You surely can't mean that you'd miss Europe just to go to a lawn party?"

"But you miss the point entirely, James," expostulated Mrs. Rivalton bitterly. "How can I give another one later that'll make hers look mean and paltry if I don't see for myself how elaborate hers is?" - Alexander Ricketts in New York Times.

Miss Agnes Miller, of Chicago, speaks to young women about dangers of the Menstrual Period—how they can avoid pain, suffering and remove the cause.

"I suffered for six years with dysmenorrhea (painful periods), so much so that I dreaded every month, as I knew it meant three or four days of intense pain. The doctor said this was due to an inflamed condition of the uterine appendages caused by repeated and neglected colds and foot wetting. "If young girls only realized how dangerous it is to take cold at this critical time, much suffering would be spared them. Thank God for Lydia E. Pinkham's Vegetable Compound, which helped me any. Within three weeks after I started to take it, I noticed a marked improvement in my general health, and at the time of my next monthly period the pain had diminished considerably. I kept up the treatment and was cured a month later. I am like another person since I am in perfect health."—Miss AGNES MILLER, 25 Potomac Ave., Chicago, Ill. —\$5000 forfeit if original of above letter proving genuineness cannot be produced.

The monthly sickness reflects the condition of woman's health. Fifty thousand letters from women prove that Lydia E. Pinkham's Vegetable Compound regulates menstruation, and makes those periods painless.

MOTHER'S FRIEND

Mrs. Laura S. Webb,

Vice-President of Women's Democratic Clubs of Northern Ohio.

THERE ARE MANY sickly women between the ages of 46 and 55, but there are very few invalids over 55 and 60 years of age. The change of life coming to a woman near her forty-fourth year, either makes her an invalid or gives her a new lease on life. Those who meet this change in ill health seldom live ten years afterward, while a woman who lays aside the active duties of womanhood in health seldom fails to live on in happiness, years after she has passed 60. This is truly a critical time.

Mrs. Laura S. Webb, of Toledo, Ohio, recognizes the change of life as a dangerous period and she also has faith in Wine of Cardui. She writes:

"As I had always been troubled more or less at the menstrual period, I dreaded

the change of life which was fast approaching. While visiting with a friend I noticed that she was taking your Wine of Cardui, and she was so enthusiastic about it that I decided to try a bottle. I experienced some relief the first month, so I kept on taking it for three months and now I menstruate with no pain and I shall take it off and on now until I have passed the climax. I do not dread it now, as I am sure that your Wine of Cardui will be of great benefit at this time."

Wine of Cardui is the remedy to re-inforce a woman against the shock that comes with the change of life. It re-establishes healthy functions after years of suffering. In doing this it has saved thousands of sufferers just in time. Do not wait until suffering is upon you. Thorough preparations should be made in advance. Begin the Wine of Cardui treatment today.

WINE of CARDUI

A million suffering women have found relief in Wine of Cardui.

HELEN KELLER

Has a Rival in Blind Katie McGirr, Victim of the Great Blizzard of 1888.

Probably the happiest girl in Greater New York the other day was Katie McGirr, the blind, deaf and formerly mute pupil in the New York Institution for the Instruction of the Deaf and Dumb. Her progress is considered by her instructors more remarkable than that of Helen Keller, the famous pupil of Radcliffe college, says the New York World.

Miss McGirr has been taught to articulate and the perfection which she has attained in speech surpasses that possessed by Helen Keller. She was greatly excited when her instructor appeared the other morning and was anxious to know how her salutatory address and an essay delivered the night before at the graduating exercises had been received. Her hand trembled as she stretched it forth to receive on the sensitive palm and fingers the reply to her questions. Almost as swift as speech, messages were conveyed to her of her triumph. She laughed like a happy child.

Persons who have witnessed Miss McGirr's powers for the first time can scarcely comprehend them. Although totally blind and deaf, her mind sight and her ability to receive communications through her hand apparently serve nearly all the purposes of eyes and ears. She was dumb until five years ago, but has been taught to articulate distinctly.

Miss McGirr is twenty-two years old. She has dark hair, and although her eyes are sightless there is a luminant expression in her face which dispels the impression that she is blind. Her affliction is not noticeable until she starts to move, and then her hands grope helplessly. She gave a brief history of her life as follows:

"My life has been happy in spite of my blindness. I was born in New York city in 1880. During the great blizzard of 1888 I was out in the storm and caught such a bad cold that it caused me to lose both my sight and hearing. I could read and write but little at that time. I lived with my parents until I became deaf and blind. Then my mother sent me to the sick ward at Randall's island, and I remained there until 1890, when some one brought me here to school.

"I remember when I became blind. Everything was black and I thought I was left alone surrounded by black darkness. I was sad and discouraged.

"Before I came here my friends used to write on the palm of my hand, and in that way I could understand what they said. Later I was taught the manual alphabet, and when I had learned to read spelling in the hand I could converse with the pupils here. The first book I studied here was a child's history of the United States. My teacher put my Scripture lessons in moon (a raised type for the blind) for me. I soon became familiar with all the Bible stories.

"I learned line (raised letters) from common glass bottles. For several years I had no books to read, except the old ones in moon type. Two years ago I learned to use a typewriter and recited most of my lessons with it. I

like to use a typewriter much better than a pencil and paper. I have learned to sew and knit and crochet. I love all kinds of flowers. Their fragrance cheers me. Mrs. Currier, the wife of the principal, sends me plants in pots, and I keep them on a window near my typewriter and enjoy them very much."

It is in her powers as a "linguist" that Miss McGirr surpasses Helen Keller. The latter has been under the almost exclusive instruction of one teacher, while Miss McGirr has been taught by many instructors. She is skilled in all of the manual languages. Many persons who have conversed with her in this way have formed the opinion that she is possessed of telepathic powers. She will signify that she comprehends a word, although not more than two letters have been formed. Frequently only two or three words of a sentence will be formed, but she grasps the entire sentence and makes quick reply. In this way a conversation is carried on with Miss McGirr with almost incredible rapidity.

She converses with her teachers as quickly as if both possessed the powers of hearing. The teacher employs only one hand in conversing with her, but by signs, much like the code in telegraphy, words and sentences are abbreviated so that marvelous speed is acquired.

GAS BY METER AT LOW PRICE OF

18c per 1000 Cubic ft.

Newark has been paying a high price for gas for several years, when they take into consideration the price \$3.33 a month for seven months for a heating stove and about the same price for the people of Newark are paying more for gas than any other town in the country.

We last year put Chillicothe on meter under the same objections that the citizens of Newark have been objecting to, for several years, as the people imagined that meter gas was very expensive, but we are positive when we say that Chillicothe and other towns, would not return to the flat rate system at any price. We cite you this town for reference, and the price at which we offer the gas to you is way below that of any other in the country, as Chillicothe pays 25 cents, and at the rate of 18 cents per 1,000 cubic feet net offered Newark there is not a single family in the whole town that burns gas today, but what can better afford to burn gas by meter than by flat rate. You will get better service, and in one year's time you will say that meters are a blessing. Furnaces can use gas at 18 cents, which is cheaper than coal. Buy the proper appliances and save the price of them in a very short time.

People wishing to change now can do so and get the benefit of the warm months, as gas bills by meter are very small in the summer. After October 1st, the company will insist on the use of meters.

FALSE WORK

FELL INJURING SIX MEN IN FAIRFIELD COUNTY.

Warning Was Given a Moment Before the Collapse, But Men Didn't Heed It.

Lancaster, O., June 27—The false work for the Hocking Valley Railroad company's new steel bridge over the Hocking river, one mile south of Sugar Grove, Fairfield county, collapsed yesterday afternoon and six men working upon it were precipitated into the river, a distance of 50 feet, two being seriously and four badly hurt.

The Injured:

L. J. Strohl, Athens, O., right thigh broken and internally injured. May not recover.

Thomas Gray, Lancaster, O., cuts on head and bruised on body.

John Horeystoffe, Lancaster, arm broken and bruises on body.

John Leonard, ankle broken.

Thomas Miller, bad cut above right eye.

Andrew Johnstone, badly bruised about the body.

Strohl, Harry Stroffe, Gray and Miller were rescued from the river in a helpless condition by fellow workmen. All the injured were brought to Lancaster, Strohl later being taken to his home at Athens.

The collapse of the false work it is claimed, was due to structural weakness.

It is said that just a minute before the accident Albert Justus walked out on the bridge and warned the men to leave the false work, saying the structure was in danger of collapsing. None of the men heeded the warning and he had just left the bridge when the false work fell.
